

Linn County Precinct Finder

Welcome to the Linn County Precinct finder. Our office has listed some basic user instructions and tips for looking up a Linn County residential address.

Address Search:

House #:	<input type="text"/>
Street:	<input type="text"/> (1st St, SCOTT RD, 25th STREET DR, etc.)
Post Direction:	<input type="text"/> (NE, SW, etc.) (Use only if needed to refine your search)

Instructions:

- **Enter a House Number.**
 - If you do know the number, leave blank.
- **Enter a Street Name.**
 - Do not enter a Pre-Direction or Post-Direction (N, NW, SE, etc)
 - Some addresses are very similar (32nd St & 32 Street Dr, 33rd Ave & 33rd Avenue Dr, etc). Be sure to select your exact street name.
 - See Tips, below, on typing the name vs. using the pull-down menu.
- **Residential Addresses Only.**
 - Do not enter a commercial or other non-residential address.

Tips:

- **Less is more.**
 - It is not necessary to enter information in all three fields to get results. Searching with as little as one field populated will generate a list of addresses from which to choose.
- **More is less.**
 - To get a shorter list of addresses, enter more information unique to the address you are searching for.
 - If you get zero results, the combination of information entered into the three fields does not match an existing residential address. Try removing the House number or Post Direction.
- **Typing vs. Pull-down Menu**
 - Pull-down
 - At any time, you can click on the down arrow and scroll through the list to find your street name.
 - To search through the list faster, you can start by typing the first few letters of your street name and then go to the pull-down menu and scroll through the list from there.
 - Typing
 - As you type, the field will begin to fill in with a match based on what you have typed at that point.
 - It is *important* to type without hesitation. Hesitating will cause your next key stroke to start the fill-in process over.
 - Repeatedly typing the first letter of your street name will scroll through the list of names that begin with that letter.
- **Streets with a Pre-Direction or Post Direction (N, S, NW, etc)**
 - Pre-directions and Post Directions are not part of the street name search.
 - For example, if you live on N. Linn Drive, enter "Linn Dr" in the Street Name.
- **Numbers as Street Names**
 - When your street name is a number, do not spell it out.
 - For example, use "1st" instead of "First"

Vision Statement: Every eligible person exercising their right to vote.

Mission Statement: Preserve the integrity and fairness of the election process.

Goal: Exceed Their Expectations!
